

**REGION 6 REGIONAL RESPONSE TEAM (RRT)
RESOLUTION**

- I The establishment of the Industry Work Group Executive Committee in the Region 6 Regional Response Team (RRT) is hereby undertaken.
- II The mission of the Industry Work Group Executive Committee (IWG) is to promote partnership between RRT and industry in response and planning.
- III The IWG will provide industry support and resources through technical and preparedness expertise for RRT programs and objectives. It will promote open communications between the RRT membership, the response community, industry, and the public.
- IV Liaison between the IWG and the RRT will be accomplished through the Executive Secretariat.
- V The Executive Secretariat will appoint the interim IWG Executive Committee from recommendations and nominations from the RRT membership and industry.
- VI The membership of the IWG will be composed of a maximum of twelve (12) industry representatives. The organization of the IWG will include an inland co-chair, a coastal co-chair, industry liaisons to the RRT standing committees, an industry representative from each of the five (5) states, one (1) industry liaison from the EPA and one (1) industry liaison from the Coast Guard.
- Membership in the workgroup committees will be by invitation from the IWG.
- VII The interim IWG will provide a draft document to the Executive Secretariat for the establishment of the various committees, which will be part of the IWG and will have specific projects and/or programs in support of RRT standing committees and RRT objectives.
- VIII The IWG is an “ad-hoc” work group and all work groups created by the IWG for performance and support of RRT programs and objectives will be “ad-hoc” work groups / committees.
